### 3 Easy Ways Mums Can Spice Up Hair Color Without The Fuss

Ready for a change but not too much? Then here's what you do.

Boost your natural base colour with lowlights by adding tones that enrich your current colour.

Look to the stars for shades you covet. Watch how they switch out their shades for the season and ask

yourself, *what can I realistically copy?* Be sure to stay within one or two shades of your current hue.

Finally, customise your colour. Bring in a photo to your consultation. Talk about the colours in your wardrobe.

Do you have more pastels or bold colours? Or do you have brown, grays or black?

This will help with colour placement for a beautiful look that's truly yours!

### Mum Chic Hairstyles

**Kristin Bell**

Side-pinned curls is great for wavy or straight hair, thick or fine.

No muss, no fuss!

**Michelle Williams**

Zig-zag parted pixie is a chic way to wear short, thick or fine hair.

**Jada Pickett-Smith**

Slicked back half-updo works best with thick or fine, straight hair.

**I just had my hair de-frizzed and it's fantastic! I'd had it done once before but it didn't really work. This time it is REALLY smooth. Jenny is just gorgeous, would recommend driving from anywhere in Adelaide to try Hair Tamers. Lots of laughs and great service. Thanks lovely ladies x**

**Q.** "How can I get really shiny hair?"

**A.** Get a hair trim every 4-6 weeks, then just say yes to hair serums. They moisturise with a light concentration of oil. Use just a little bit. Consider a weekly leave in conditioner to really pump up the shine. And cut out fast foods! Feed your body and your hair good foods. Shiny hair starts from the inside out!

### **The smart way to blow-dry your hair.**

Direct the dryer's nozzle down the hair shaft as you hold each section with a round brush. Finish by pressing the "cool" button. This has a similar effect as rinsing your hair with cool water.
